Subject: WV spill info

My index on the CBI LAN (The file includes CASRN, Chemical Name, Doc Type, Case Number, Source, Scanned?, Study Description, Study Description Source and comments fields):

G:/IMD/WVSpill/WV_Spill_TSCA_cases.xls

The CDC website (<http://emergency.cdc.gov/chemical/MCHM/westvirginia2014/index.asp>):

The MCHM crude mixture studies have been made available on:

<http://toxnet.nlm.nih.gov/cgi-bin/sis/search/r?dbs+hsdb:@term+@DOCNO+8182>

and

<http://www.eastman.com/Pages/Eastman-Crude-MCHM-Studies.aspx>

I've gone back to CBITS and TSCATS to see if we have any of these studies from Eastman but so far I have not been able to locate them. From FY1990 to FY1999 submitters containing "Eastman" in the title submitted 482 distinct 8E cases according to CBITS.
